Manohar H

Hassan, Karnataka | 8971979534 | mmanohar619@gmail.com | linkedin.com/in/manohar-h/ | github.com/m-manu619

Professional Summary

Detail-oriented professional with experience in **technical support, project coordination, and cloud technologies**. Skilled in troubleshooting, workflow optimization, and software development. Proficient in **Google Workspace, AWS, and productivity tools**. Strong problem-solving skills, excellent communication, and ability to manage multiple tasks efficiently.

Work Experience

Project Engineer
Wipro Technologies, Bengaluru
February 2022 – March 2023

- Provided **technical support**, troubleshooting user queries and ensuring seamless platform operations.
- Developed **Java applications using Spring Boot**, improving system efficiency and reducing response time.
- Conducted root cause analysis and implemented solutions to enhance **system reliability**.
- Collaborated with cross-functional teams to optimize workflows and improve process efficiency.

AWS Solution Architect and DevOps Intern
Micro Degree, Bengaluru
February 2024 – July 2024

- Designed and deployed AWS environments with EC2, S3, and IAM.
- Streamlined CI/CD pipelines with Jenkins and Docker, reducing deployment time by 40%.
- Monitored and optimized AWS resources using CloudWatch.

Education

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE
Malnad College of Engineering, Hassan | August 2021 | CGPA: 7.8

Skills & Abilities

- **Technical Support**: Issue resolution, debugging, user query handling.
- **Programming**: Java, Python, Spring Boot, RESTful services.
- **Cloud Technologies**: AWS (IAM, EC2, S3, DynamoDB, CloudWatch).
- **DevOps Tools**: Jenkins, Docker, GitHub, CI/CD pipelines.
- **System Administration**: Linux, Windows, Unix.
- **Soft Skills**: Communication, problem-solving, stakeholder management.

- **Other Tools**: MS Office Suite, Google Workspace (Sheets, Drive)

Projects

AI-Powered Resume Screening Tool

- Automated resume screening with NLP, improving shortlisting speed by 50%.
- Built using Python and AWS for scalable deployment.

Cloud-Based File Storage System

- Developed a secure file storage system with AWS S3 and IAM for access control.
- Utilized Docker for deployment, reducing local storage needs by 40%.

Data Integration Platform for OSDU

- Created a Java-based data integration platform, improving data availability to 99%.
- Enhanced scalability with RESTful services, reducing processing time by 20%.

Certifications

- **AWS Solution Architect and DevOps** | Micro Degree
- **Machine Learning Using Python** | Inventeron Technologies
- **Goldman Sachs Excel Skills for Business Job Simulation** | Forage
- **PwC Switzerland Power BI Job Simulation** | Forage
- **Verizon Cloud Platform Job Simulation** | Forage

Languages

- **English**: Advanced (C1)
- **Kannada**: Advanced (C1)
- **Hindi**: Advanced (C1)

Activities

- Cricket
- Swimming
