Full-Stack Developer (Java + React)

Hassan, India | 8971979534 | mmanohar619@gmail.com | manohar-portfolio-rho.vercel.app | linkedin.com/in/manohar-h

PROFESSIONAL OVERVIEW

Full-stack developer with 2+ years building Java/Spring Boot backends and React frontends, plus hands-on AWS/DevOps experience (EC2, S3, IAM, DynamoDB, CloudWatch, Docker, Jenkins, Terraform) from Wipro, an AWS internship, and independent project work. Comfortable owning a feature end-to-end and favoring maintainable solutions over quick fixes.

WORK EXPERIENCE

INDEPENDENT FULL-STACK DEVELOPER | Self-Directed Projects JUL 2024 – PRESENT

- Own full-stack projects end-to-end — architecture, API design, frontend, and deployment (Spring Boot, React, AWS, Terraform); see Projects and portfolio below.

AWS SOLUTION ARCHITECT AND DEVOPS INTERN | Micro Degree, Bengaluru FEB 2024 – JUL 2024

- Designed AWS environments (EC2, S3, IAM), choosing configurations for scalability and cost over defaults.
- Streamlined CI/CD pipelines with Jenkins and Docker to cut manual deployment steps and shorten release cycles.

PROJECT ENGINEER | Wipro Technologies, Bengaluru FEB 2022 – MAR 2023

- Built and maintained Java/Spring Boot RESTful services for the OSDU platform, favoring maintainable, testable code as requirements evolved.
- Root-caused critical production issues, prioritizing fixes that restored stability without introducing regressions.
